1.0 EXECUTIVE SUMMARY & ALLEGATION OVERVIEW

1.1. On March 8, 2026, Human Resources received a formal internal complaint regarding inappropriate workplace conduct and verbal harassment within the engineering organization. The complaint alleged that a senior engineering team member ("the Subject Employee") engaged in repeated pattern behavior violating Section 2 of the Northlane Employee Handbook (Equal Employment Opportunity & Anti-Harassment).

1.2. An internal administrative investigation was initiated on March 10, 2026, conducted independently by Dana Whitcombe, Head of HR, with oversight from Jordan Reyes, General Counsel. The scope encompassed interviewing primary witnesses, auditing internal Slack communication logs, reviewing pull request comment histories on GitHub, and examining technical review documentation.

2.0 INVESTIGATIVE FINDINGS & EVIDENCE AUDIT

2.1. Witness Interviews. Investigators conducted formal, recorded interviews with six (6) current full-time personnel across engineering and product management. Multiple witnesses corroborated that the Subject Employee frequently used derogatory language and hostile tone during code reviews and architectural planning sessions.

2.2. Digital Audit. A review of communication archives confirmed multiple instances where the Subject Employee published unprofessional, exclusionary, and hostile comments directed at junior engineering staff members during sprint retrospective meetings and Slack technical channels.

3.0 STATUTORY COMPLIANCE & POLICY EVALUATION

3.1. Policy Breach Determination. Based upon the preponderance of credible evidence, the investigation concluded that the Subject Employee violated Northlane Policy POL-E1-2026 Section 2.2 (Prohibition of Harassment) and Section 4.4 (Professional Conduct Standards). The behavior created an unacceptably hostile working environment for affected team members.

4.0 RECOMMENDED DISCIPLINARY ACTIONS

4.1. Employment Termination. HR and Legal recommend immediate administrative termination of employment for the Subject Employee without severance eligibility, effective March 27, 2026. Executive sign-off has been executed by Dana Whitcombe (Head of HR) and Jordan Reyes (General Counsel).
