1.0 FINANCIAL REVIEW & AWS COST OVERRUN ANALYSIS

1.1. Financial Performance. Marcus Feld (CFO) presented the Q2/Q3 financial report, noting ARR reached \$38.2M. However, Feld highlighted a significant \$142,000 AWS infrastructure cost overrun during Q2 caused by unoptimized index scaling in the Northlane Insights data ingestion pipeline.

1.2. Engineering Mitigation. Priya Nathan (VP of Engineering) detailed technical architecture remediations implemented to cap AWS compute scaling limits and optimize database query caching, projecting \$45,000 monthly cost reductions starting in Q4.

2.0 SECURITY POSTURE & INCIDENT REVIEW

2.1. Credential Exposure Postmortem. Sam Okafor (Director of Security) briefed the Board on the March 2026 staging credential exposure, confirming full remediation and successful SOC 2 Type II audit completion.
