

NORTHLANE SOFTWARE INC.
ALL-HANDS COMPANY MEETING SUMMARY — AUGUST 2026

Document ID	POL-E8-2026
Meeting Date	August 12, 2026
Document Owner	Executive Leadership Team
Key Presenters	Marcus Feld (CFO), Priya Nathan (VP Eng), Dana Whitcombe (Head of HR)
Classification	Internal / All-Company Distribution

1.0 EXECUTIVE REMARKS & FINANCIAL PERFORMANCE SUMMARY

1.1. Financial Update from Marcus Feld (CFO). Northlane achieved strong Q2 performance, reaching \$38.2M ARR (Annual Recurring Revenue), reflecting a 14% year-over-year expansion across mid-market enterprise accounts. Gross margins remained stable at 78%. Operating cash flow targets were met despite recent cloud infrastructure investments in pipeline throughput for Northlane Insights.

2.0 PRODUCT & ENGINEERING ROADMAP UPDATE

2.1. Product Highlights from Priya Nathan (VP of Engineering). The engineering organization successfully deployed the v4.2 release of Northlane Insights, introducing enhanced real-time anomaly detection pipelines and streamlined custom dashboard export features. Migration to automated AWS multi-region failover architecture is 85% complete, significantly improving SLA guarantees for enterprise customers.

3.0 HR, HEADCOUNT & SECURITY GOVERNANCE

3.1. Workforce Growth Update from Dana Whitcombe (Head of HR). Total company headcount has reached approximately 240 headcount across all remote and hybrid offices. Q3 hiring priorities focus on scaling customer success and senior pipeline engineering roles.

3.2. Security Compliance Note from Sam Okafor (Director of Security). SOC 2 Type II annual audit recertification was successfully completed with zero major non-conformities found. All employees are reminded to complete mandatory Q3 cybersecurity refresher modules by September 15.
